

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

Feels

What are their fears, frustrations, and anxieties?  
What other feelings might influence their behavior?

Does

What behavior have we observed?  
What can we imagine them doing?

THE TABLEU HR  
SCORECARD: MEASURING  
SUCESS IN TALENT  
MANAGEMENT

Tableau provides a governed and flexible environment where teams can share their work and collaborate on trusted data

Automate analysis and improve productivity with augmented experiences, powered by AI and ML that guide business users to the answers they need, communicated in ways they understand.

Improve business results with intelligent insights you can trust. Transparent AI is built into the platform to democratize what-if scenario planning, guided model building, AI-powered predictions, and other data science techniques.

With email and Slack integrations, get notifications for data-driven alerts, access AI predictions, and collaborate on analytics with the entire team, across departments, or the whole organization to drive your business forward.

Organizations often need help with a specific challenge—whether it's digital campaign analysis for the marketing department, Workday data analysis for an HR leader, or KPI scorecards for sales managers to communicate sales performance goals to the company.

With email and Slack integrations, get notifications for data-driven alerts, access AI predictions, and collaborate on analytics with the entire team, across departments, or the whole organization to drive your business forward.

To tap this growing pool of freelance and project-based talent, viewing portfolios of relevant projects allows you to gauge whether an individual's expertise aligns with your business needs
